

Overview and Program Description

Many healthcare organizations are structured in a dyad leadership model, pairing a clinical and operational leader together to run an organizational unit. The effectiveness of the dyad directly impacts the effectiveness of the organizational unit they lead. This leadership program is designed to improve senior leadership dyads through relationship building and defining role clarity and helps participants understand their own motivators, drivers, and natural ways of interacting with others. Understanding the diverse relational and leadership styles of each individual is key to forming mutually beneficial and productive relationships. After going through this program, participants will be able to build stronger relationships with their dyad partner, have meaningful discussions with their dyad partner, and create action plans to improve future dyad and team performance.

SAMPLE COURSE SCHEDULE

Topic	Activities
Introductions & Connections	<ul style="list-style-type: none">• What do you love most about your role?• What do you find most challenging?
Components of Successful Dyad Leadership Model	<ul style="list-style-type: none">• Common core values (Value Cards)• Willingness to work together towards a common vision (Mission, Vision, Value)• Complementary Competencies (IDI)• Clear transparent communication (IDI & TKI)• Respect (10/10/10 Walk)
